CUTLERY

The "Economical" Table Cutlery With Balance Handles.

A new article of Table Cutlery, with imperishable handles, and at a price considerably lower than any first-class Table Cutlery hitherto manufactured. In this Cutlery the Tables and Desserts are in one piece from end to end, being throughout of the best steel manufactured; the handles, as far as the shoulders, are thoroughly well plated, and being of solid manufacture there is no risk of SPLITTING, DISCOLORING, STAINING, OR OF INJURY IN ANY WAY, whilst in facility of cleaning and pleasantness to the touch they stand superior to all other Cutlery.

Table Knives, per doz.	Rs. 15 0	Game or Poultry Carvers, per pair	Rs. 6 0
Dessert Knives, ,,	,, 13 0	Table Steels, each	,, 1 8
Meat Carvers, per pair	,, 7 0		

"Riveted" Through Ivory Handled Table Cutlery.

In this Cutlery the method of securing adopted is very simple, but effectual. A rivet is driven into the ivory handle, which passes from side to side, right through the tang of the blade, thus securing the latter against any chance of separation from the ivory handle.

Table Knives, per doz.	Rs. 25 0	Meat Carvers [one knife and fork], per pair	Rs. 7 8
Dessert Knives, per doz.	,, 20 0	Table Steels, each	,, 2 8
Game Carvers (one knife and fork), per pair	,, 7 8		

Patent Secure Ivory Handled Table Cutlery.

Manufactured by the Cutlers to Her Majesty.

In this invention, the *tang*, or continuation of the blade, is carried inside quite through *to the end of the handle*, and is there secured *by a screw*. It is impossible for the handle to become separated from the blade, either by the action of heat, or by the effects of being washed in hot water, or from wear and tear. The Sheffield Steel, of which the blades are manufactured, is of the very best quality, and the fine ivory handles are in the most perfect style of manufacture.

Table Knives	per doz. Rs. 30 0	Game or Poultry Carvers (one knife and fork)	per pair Rs. 8 0
Dessert Knives	,, 25 0	Table Steels each	,, 2 4

COMMERCIAL INTELLIGENCE.

SATURDAY EVENING, OCTOBER 12TH, 1878.

The political telegrams to hand during the week are far from reassuring; on the contrary, an Afghan War appears to be inevitable, and fresh complications are also arising in Europe respecting the carrying out of the Treaty of Berlin. Consols are unchanged at 94⅞ after having been quoted for one day at 94¾. French Rentes remain steady at Fcs. 113½.

Another large failure was announced on Saturday; that of Messrs. Heugh Balfour and Co., of Manchester and London, with liabilities estimated at one to two millions sterling. The firm has done a large business with Bombay and Calcutta in Piece Goods for many years.

Commercial telegrams continue to report generally dull markets. The value of Cotton in Liverpool is steadily declining notwithstanding the smallness of the stock held there, but with the prospects of a Crop of 4,000,000 bales from America, and with Receipts at the U. S. ports already amounting to 522,000 bales, any improvement in the staple appears to be impossible, especially when we look to the continued depression in the manufacturing districts in the North of England, which is evidently increasing. In the General Produce Markets Oilseeds are dull of sale, both in England, and on the Continent, and with prospects of abundant Crops from India prices are likely to decline. The recent high rates ruling in London for Cocoanut Oil are maintained. Coffee is rather easier. Last Wednesday's Return of the Bank of England is again somewhat less favourable, the proportion of the Liabilities to the Reserve having declined from 51½ to 32½. The Bank rate of discount is unchanged but Money in the open Market is rather tighter, the rate of discount for six months' sight Bank Bills now being 4½ per cent.

Here our Crop prospects continue favourable throughout the country especially in the N.-W. Provinces, where they are said to be unusually good. The basis of a large export trade may accordingly be taken as assured for the coming season, but there is no increase of activity at present, and it seems likely that we shall see a continuance of great quietness until the end of the year. October and November are generally slack months under any circumstances owing to Native Holidays. Business has been suspended in Calcutta for twelve days for the Doorgah Poojah Holidays and re-opened on Saturday very quietly. Our Markets will be closed for the Dewali Holiday's for two days next week, after which we may hope for an increased business in Imports, but in Exports we can hardly look for much improvement until January when the New Cotton should be commencing to come in freely, and accounts now generally agree that on the whole the Crop promises very well. In some districts no doubt excessive rains have done damage, but the weather lately has been so favourable that although there may be stain in the earlier pickings, especially of Comrawuttees, the Cotton Crop should be heavy, and an export of 800,000 bales for the first six months of the year is now looked upon as a very moderate estimate, and in addition to this we were likely to have a good trade in Seeds and Wheat, there is no probability of much heavier exports from Bombay during the coming season than for some years past. Whether the Markets will be such as to be remunerative to merchants is another question, and one which, with the continued unsettled state of politics both here and on the Continent, is more than usually difficult to form an opinion about, but unlike last season the produce will be there to operate upon. The past four months have indeed been miserable in their depression, but a time of dulness is always looked for during the S. W. Monsoon, and if earlier the past of the year has been fruitful with brisk markets for our Exports at Home and Imports here, a period of 'otium cum dig,' during the rains is not altogether distasteful to the Bombay Merchants and Bankers; this year, however, we had no busy season, as in addition to short supplies of produce of all sorts throughout India, the markets for Imports have been wretchedly dull and have caused heavy losses to the Importers. It is true that we had occasional spurts in the markets both for Import and Export, but these were invariably followed by a rapid reaction and times of increased depression.

The position of our various Markets at the close may be summarised as follows:—Money easy; Sterling Exchange weak; Government Paper dull; Shares steady but quiet; Imports generally steady but quiet; Goods in moderate demand; Yarns dull; Copper and other Metals steady; In Exports Cotton is neglected; Linseed earlier with a downward tendency; Rapeseed quiet; Jute nothing doing. For Freights the demand is, if possible, less than previously, but with the rate for steam tonnage down to 7-6 per ton, a change cannot be much for the worse, although there is no immediate prospect of any change for the better.

Money.—The last Bank of Bombay return for the week ending on the 5th inst. was not quite so favourable as its immediate predecessors, which was not to be wondered at considering the period of panic which we had just passed through here. The changes, however, were not of sufficient importance for the Directors at their weekly Board meeting to make any alteration in the rates of interest and discount which remain at 4 per cent. on Fixed Loans on Government Securities, 5 per cent. on Demand Loans on similar securities, and 6 per cent. an Mercantile Bills. In the open Market accommodation is still procurable at one per cent. under these rates, and the feeling is generally easy, although the Market is not so on Government demands, it is difficult to say how long this may continue, with prospects of a War so imminent.

Exchange.—The tendancy of Sterling Exchange throughout the week has been downwards, and with an unusually small amount of ready Bills making and a general disinclination to enter into forward transactions, our quotations at the close show a fall of 3-32d. to 1-8 from last Mail day. Business opened on Tuesday on the basis of 1s. 7 11-16d. for demand Bank and 1s. 8 6-32d. for 4 months' sight Credit Bills, and although weak no quotable change took place until Thursday, when a partial decline of 1-16 was established. On Friday rates were decidedly weaker, and more disposition was shown on the part of buyers to operate ahead. On Saturday rates opened week, and as the day wore on a further decline of 1-16 was established, owing chiefly to the news from Calcutta where the Market opened dull after the holidays on the basis of 1s. 8d. for 6 months' sight Bank Bills, our closing rates are:—Demand Bank Bills 1s. 7¼d., 6 months' sight 1s. 8d., Credits, 8 months' sight 1s. 8 3-32d.; 6 months' sight 1s. 8 9-32d.; Documents, 8 months' sight 1s. 8¼d.; 6 months' sight 1s. 8 5-16d. per Rupee. For future delivery, say up to the end of the year the Banks are buyers at an advance of about 1-32 per mensem, but little has been done as neither Bank nor private sellers have shown much disposition to operate.

The transactions in Private Paper for this Mail have again been limited by the extremely small export business doing, and for Bank Bills there has also been little doing, as the enquiry for remittance is insignificant. As regards the future course of the Market, the opinion seems to be general that rates cannot decline much further, but that we may at any time see a reaction, although it is improbable that any material advance will take place before the end of the year, and for the present at all events there seems to be little prospect of any advance. No allotment of Council Drafts was made last week owing to the absence of traders, so that the amount of £420,000 now standing over will be offered again next Wednesday; this together with the depressed state of the Silver Market are certainly elements in favour of continued low rates of Exchange, but it must be borne in mind that we have recently passed through a time of unusual depression in trade, of which there is every reason to hope we have seen the worst, but there is not likely to be much advance until the export season becomes fairly active, which cannot well be before January next. The non-allotment of Council Drafts on Monday may be mainly attributed to the holidays in Calcutta.

Bar Silver has steadily declined from 51¾d. to 51d. per oz., which is the present quotation for the Metal in London.

—On Calcutta demand Bank drafts are at par and 60 days' sight Bills are saleable at 7-16 per cent discount. On China the nominal rate for 60 days' sight House Bills is Rs. 216 per 100 dollars.

From Hongkong the latest advices by wire quote 6 months' sight Bank Bills on London at 4s. 8¾d. per dollar and from Shanghai 5s. 2¼d. per tael.

Government Securities.—The Market has been quiet throughout the week and closes depressed both here and in Calcutta, owing to the prospects of a Frontier War, a decline of ¾ has taken place in Fours and ¾ in New Fours-and-a-half per cent., our closing quotations being Rs. 95 for the former and the Old Four-and-a-half per cent. Loan and Rs. 100½ for the latter.

Shares.—The Market has been dull during the week, and purchasers have been operating very cautiously, and the actual transactions reported have not been large. Early in the week Bank Shares were depressed, but they have since almost recovered what was then lost. In Spinning and Weaving Companies Scrip the tendency has been generally downwards. Alberts have given way Rs. 60, Alexander Rs. 35, Dhunmuseys Rs. 5, Khandesh Rs. 10, Morarjees Rs. 10, Prince of Wales Rs. 30. In Press Companies Alberts have declined Rs. 10, Carwar Rs. 10, and Sassoons Rs. 20; an advance of Rs. 25 has taken place in Colabas and Rs. 20 in Bellary.

Our Piece Goods Market, which on last mail day was suffering from the effects of the uneasiness that existed in all branches of trade at the time, has slightly recovered from its state of depression under the influence of continued favourable crop prospects, and an improved demand from the Interior. Dealers are gradually attaining more confidence and indents are now going forward more freely, while up-country buyers, although not operating largely, have bought more than for some time past. The clearances from first hands since last mail left consist of about 700 packages and from the Bazaar about double that quantity, consisting chiefly of Grey Shirtings, Grey Dhoties, and Grey Madapollams, these being the descriptions for which there is most demand just at present, but should the improvement be maintained, the enquiry will probably become more general. Small sales are also reported of T. R. Cambrics and Shirtings and Whit-Mulls and Dorias, but the demand hitherto has mainly been for Grey Goods. Prices, as a rule, do not show much alteration as yet, but with present favourable prospects we may look for values improving shortly. In Local Made Goods sales of 900 bales have been reported during the week consisting of Grey T. Cloths, Long Cloths, Domestics, Dhoties, and Chadurs at 7 9-16 As. per lb. At the close, owing to the Manchester failure previously referred to, the Market is depressed, with an increased feeling of uneasiness.

Twist.—Not a bale of imported Yarn has been sold during the week, but of Local Made Yarns about 1,100 bales have changed hands consisting of No. 10's at 5 7-16 As. up to No. 20's Mule at 6¾ As. per lb.

Metals.—*Copper*.—There is a moderate demand, but with a decline in Exchange, importers have been asking higher rates which dealers as yet refuse to pay. *Yellow Metal* is steady and firmly held, both *Sheeting* and *Brassiers* are in fair request.

Iron there is not much enquiry for either Swedish or British manufacture, but for these as with all Metals an improved demand is looked for shortly.

Coals.—Small sales have been reported during the week of Laird's Welsh Hartley alongside ships in Harbour at Rs. 18 per ton. But with this exception no business has transpired, the market being remarkably quiet.

Cotton.—On the day following the departure of the last mail, telegrams from Liverpool reported the Market in favour of buyers with the quotation for Mid. Orleans 6 9-16 and for Fair Dholleras 4 15-16 per lb.; these quotations with a dull market were unchanged until Thursday when a further reduction of 1-16d. per lb. was made in Fair Dholleras and other descriptions of Surats. Friday's telegrams give the Liverpool Stock at 835,000 bales and the visible supply at 1,180,000 bales, but even these figures have had no effect on the Market which, however, is reported to close rather firmer, the total sales for the week amounting to 54,000 bales. The dulness prevailing in the Liverpool Market has somewhat increased the state of stagnation in which we were in here previously, and the total reported sales for Export during the week only amount to about 500 bales and to the Local Mills about 700 bales. Prices for ready Cotton have only given way Re. 1 to Re. 2 per candy, as owing to the smallness of available supplies dealers can afford to be firm. In New Cotton, however, there are now sellers of Oomrawuttee for Jan.-February delivery at Rs. 195 per candy without finding buyers, and we rarely, if ever, remember such an unanimous opinion here respecting the future of the staple, both Europeans and Natives being equally anxious to sell and disinclined to buy.

The *Clearances for Sea* during the week amount to 3,277 bales, making a total of 707,952 bales since the 1st January as against 811,047 bales for the corresponding period last year.

The following are to-day's quotations for Cotton with the equivalents in Sterling, Cost, and Freight to Liverpool via Canal, without Commission.

Old Full-pressed—	Candy of 784 lbs.
Oomrawuttee Good Fair	Rs. 198
Do. Fully Good Fair	„ 204
Dholleras Good Fair	„ 200
Do. Fully Fair	„ 195
S. Dharwar Fully Good Fair	„ 238
Compta Good Fair	„ 193
New Oomrawuttee (Jan.-Feb. delivery)	„ 195.

Linseed, with unfavourable accounts from Home and consequently a very limited demand here prices have given way 2 to 3 As. per cwt. for ready parcels, to-day's rate being Rs. 6-14 to Rs. 6-15 per cwt. For new Seed the nominal rate is Rs. 6-4 per cwt. for March-April delivery.

Rapeseed is unchanged in every respect. Stocks here are small and dealers are asking high prices. Crop prospects continue very favourable.

Wheat, owing to the continuance of favourable weather and the prospect of large crops of Food Grains is weaker, but there are no supplies in Bombay, and consequently nothing doing for export. Our quotations are:—Best White, Rs. 38 to 39; Mixed White, Rs. 36 to 37; Hard Red, Rs. 34 to 35 per candy.

SPECIAL TELEGRAMS FOR THE BOMBAY GAZETTE.

(OFFICIAL.)

NEWS OF NAWAB GHOLAM HUSSEIN.

SIMLA, Oct. 13.

The Nawab Gholam Hussein received permission from the Amir on the 6th inst. to return, and obtained also replies to the letters of the Viceroy.

OFFER OF MEN AND CAMELS TO GOVERNMENT.

The Maharaja of Ulwar has offered to Government 250 camels, and 50 men fully equipped and maintained at his cost, for service on the frontier.

(FROM OUR OWN CORRESPONDENTS.)

THE FRONTIER EXPEDITION.

PESHAWAR, Oct. 10.

The Batteries at Hurrisingh are—the Elephant Battery, 18-9 Brigade with 40 pounder Armstrongs with mortars, I. C. Battery Royal Horse Artillery, and E. 3 Royal Artillery, both 9 pounders.

The Battery just arrived at Kohat from Pindee is the 11-9 Brigade. The Mountain transport battery 3-pounder steel guns, and head quarters of the Rifle Brigade, leave Cherat for Nowshera to-day or to-morrow.

Cabul merchants report that the Amir is likely to submit. Scores of his troops are deserting, and the powerful tribe of Mohmuds refuse their aid.

A Battery of 9-pounders has arrived here from Ferozepore Arsenal. S. Battery A. Brigade Royal Horse Artillery from Pindee, accompanied by 27 men, is within two marches of this station.

Heavy firing heard from the direction of the Pass. It is supposed that Cabulees and Afridis are fighting.

SIMLA, Oct. 11.

No news from Cabul. The *Pioneer* says that Yakoob Khan's release and despatch to Candahar is possible, however improbable. But the story of the Ameer's grandson, Ahmed Ali Khan, a boy of fifteen, being sent to command a large force to Koorum is manifestly a myth. The opinion expressed in the telegram of Thursday last, that an attack on Ali Musjid, which fort has no doubt been considerably strengthened in men and guns, was projected proves correct, but the proposal is abandoned for the present; and it is believed that the idea was discouraged by the military authorities in the absence of proper supports; and it was also objected to, among other reasons, that the possession of that stronghold would entail the maintenance of a force in the Pass during this most unhealthy month. Some authorities are of opinion, that as we could seize the Khyber at any time, the operation might wisely be delayed until the advance could be continued. It seems probable that the original programme will now be reverted to, and an advance made in earnest when preparations are thoroughly matured.

Firing in the Khyber Pass was heard yesterday, and it is believed that it betokens the arrival at this outpost of some distinguished official from Cabul.

The attitude and apparent temper of the frontier tribes continue friendly.

No word of the Viceroy's emissary.

The march of the 9th Lancers, the 8th Foot, the 72nd Queen's, and the 13th Bengal Lancers, though warned for service, is not yet sanctioned by Government.

The 15th Hussars and the 60th Rifles halt at Mooltan.

The Lieutenant Governor of the Punjab leaves for Lahore a few days before the Viceroy, but will not visit Peshawar.

It is understood that the recent Cabinet Council decided to continue the policy of giving a liberal support to the Viceroy's proposals.

SIMLA, Oct. 12.

The Government has just received a letter from Nawab Gholam Hussein dated the 6th instant, which states that he had that day received the Amir's permission to depart, and is the bearer of replies to the Viceroy's letters, and that the Amir treated him with consideration as well as on his journey.

PESHAWAR, Oct. 11.

The following are said to be the numbers of troops encamped between Peshawar and the Khyber Pass, the complete accuracy of which is not, however, vouched for: Jumrood—750 Guides, 500 of the 1st Sikhs, 80 gunners of Mountain Battery, 50 of the 17th Cavalry: total 1380. Nurrisinghbonji—200 of the 81st Foot, 400 of the 9th Foot, 500 of the 7th Foot, 500 of the 20th Foot, 500 of the 22nd Native Infantry, 400 of the 14th Bengal Cavalry, 400 gunners with three Batteries of Artillery. Total 4,280.

The health of the European camp is excellent; the natives are not so well.

General Roberts is still at Peshawur.

NOWSHERA, Oct. 12.

No troops are now at Cherat. The Head Quarters of the Rifle Brigade left yesterday and will arrive at Nowshera to-morrow.

Intelligence from Cabul is said to be unsatisfactory. Operations at Ali Musjid are at a standstill until the column is further reinforced. The Rifle Brigade having arrived at Jalansai from Cherat, has suddenly changed its route for Peshawur under telegraphic orders from the front. The detachment at Nowshera will probably follow; also the detachment of the 9th.

The Amir is now said to be determined to fight.

PESHAWUR, Oct. 12.

The situation is unchanged. The Sealkote and Pindee Brigades are warned that an early forward advance may be expected. Seven thousand troops, three thousand of which are Europeans, are expected to be the force at Peshawur within a week. The Amir is reported to be daily pushing forward reinforcements. His troops at Ali Musjid are suffering greatly from fever. Carriage is badly wanted.

LAHORE, Oct. 10.

Reinforcements for the frontier are being rapidly pushed forward. Between the 14th and 22nd instant, arrangements are made for 25 special trains, carrying 5,000 troops and 24 guns, mostly for Mooltan; including 1st and 3rd Goorkas, 8th N. I., 9th Queen's, 2nd and 16th Foot, 15th Hussars, and 10th Bengal Lancers.

The Railway arrangements are most admirable, but there is some confusion in the Commissariat at Mooltan. If troops are pushed forward too rapidly, the results will be disastrous. Already there are fears about food and fodder supply for those under orders. The unpreparedness of a frontier organisation for rapidly undertaking a campaign is very disappointing.

Colonel Sankey proceeds to-morrow to survey an alternative route to Quettah, crossing the Indus at Chachur.

MULTAN, Oct. 7.

A second reserve of 6,000 troops concentrates here. Seven native and four European regiments, two field, and one siege batteries, are hastening up, replacing the troops gone forward.

DR. ATMARAM PANDURUNG has been appointed Sheriff of Bombay for the remainder of the year in the place of Mr. Hamilton Maxwell, resigned.

COLONEL BAKER, the new Military Secretary to the Viceroy, left Brindisi by the mail of Friday last.

A JUDGMENT given by the Chief Justice on Saturday last affords a fresh illustration of "the law's delays." After a period of no less than fourteen months, Sir Michael Westropp delivered on that day the judgment of himself and Sir Charles Sargent in an appeal preferred by the G. I. P. Railway Company from a decree of Mr. Justice Bayley in favour of Her Highness the Begum of Bhopal. In November 1872 the Begum, with her daughter and a retinue of followers, came to Bombay to receive at the hands of Lord Northbrook, then Viceroy of India, investiture of the Star of India. While Her Highness, with her daughter and a portion of the retinue, went to Surat, the rest of the followers, 160 in number, proceeded by third-class carriages of the G. I. P. Railway from the Byculla to the Mardah station. Their luggage, as well as that of the Begum and her daughter, the latter including gold, silver, jewels, and other valuable property, went in a waggon by another train, which was burnt on the 23rd November 1872 by a fire which broke out in the waggon near the Mandwa station. The Begum sued the Railway Company for damages to the extent of Rs. 64,500; but Mr. Justice Bayley, before whom the case was heard for more than a fortnight, held that the value of the gold, jewels, &c., not having been declared, the Railway Company was protected by section 10 of the Railway Act of 1854; and as to the rest, gave the Begum a decree for Rs. 15,200 damages, with costs, which have since been taxed at more than Rs. 7,000. From that decree, which was passed in July 1876, the Railway Company appealed, and the appeal was heard before the Chief Justice and Sir Charles Sargent at various times between February and August 1877. The hearing concluded on 10th August 1877, and the judgment was given last Saturday. Their Lordships were unable to concur with Mr. Justice Bayley, and were of opinion that the lists of lost property, furnished on behalf of the Begum, were untrustworthy. The decree of the court below was reversed with costs.

GREAT ill-feeling, we hear, prevails in Berar owing to a very junior subordinate having been appointed Extra Assistant Commissioner in the place of Mr. Davies being promoted to Assistant Commissioner.

WE learn that Captain Goad, 2nd in Command 5th Infantry H. C., who has proceeded to Simla on leave from Aurungabad, has been appointed to the Transport Service in the Expeditionary Frontier Force against the Ameer of Cabul. We also hear that Captain Cambier, R. A., Commandant No. 3 Battery H. C. at Ringoles, has also received an appointment in the same service; Lieut. Maingay (Subaltern Officer) will officiate *pro tem* during Captain Cambier's absence. Several officers from the Hyderabad Contingent have volunteered their services for the Afghan expedition, amongst whom are Captain Proudfoot and Lieut. Maltby, 2nd Infantry H. C.

WE learn that the 45th N. I., at present stationed at Alipore, have been warned for service. The news was received by the regiment with great enthusiasm, its announcement on parade drawing forth volleys of hearty cheers after the good old English style.

DURING the past fortnight, owing to the disturbance on the frontier, Europeans have been substituted for natives as engine drivers and guards along the railway line from Allahabad upwards.

THE death is reported, at Dera Ismail Khan, from illness brought on by intense heat, of Major L. C. deL. Daniell, of the 4th Sikh Infantry. Descended from an old Indian family, Major Daniell had many friends throughout the Bengal Presidency, and was especially and deservedly popular with his brother officers and the men of his regiment.

THE *Pioneer*—From Moorshedabad we learn that Saiad Iskadar Ali Mirsa Sahib Bahadur, better known as "Sultan Sahib," one of the numerous sons of the titular Nawab Nazim of Bengal, has preferred a request to be attached to the staff of the general officer commanding the Afghanistan expeditionary force. Sultan Sahib is an excellent horseman and equally at home after hog and polo-balls. He has been carefully educated in more important matters also by Mr. Arrow, the principal of the Nizamat College; and really if room can be found with our army for this fine young fellow, we do not see why he should not prove exceedingly useful, especially in connection with the Quartermaster General's Department. It is most creditable to Sultan Sahib himself to have formed a wish for employment of this kind, showing how far superior his mind has risen to the miserable traditions which would condemn him to a life of uselessness, merely because an ancestor had the good or evil fortune to be pitchforked by Lord Clive into the Nawabate of Bengal, Behar, and Orissa, soon after the Battle of Plassey. Many native princes will watch Sultan Sahib's career with interest, should he really be granted the opportunity he has so pluckily sought, of taking the field with a British column.

THE *Civil and Military Gazette*—The anomaly of opening a line of Railway without rolling stock to run on it is to be observed now daily upon the Punjab Northern State Railway, by any student of the curiosities of Government management of Railways. The broad gauge line was determined upon some two years ago; the authorities, therefore, have had ample time to arrange for an adequate supply of 1st, 2nd, and 3rd class carriages and the necessary quantity of wagons for a line, for the traffic requirements of which past experience affords ample data. The great want of narrow gauge rolling stock has been for two years loudly complained against, and yet the broad gauge section between Lahore and Jhelum has been opened for public traffic without the means for conveying the passengers and goods it is intended to carry. It is true the Government has obtained the loan of a few carriages from the Scind, Punjab, and Delhi Railway, but as the latter Company has barely enough to meet its own demands, the inconvenience which the public will have to experience may be readily imagined.

THE *Englishman*—As to the rumour that the Russians are in possession of Yarkand, two circumstances tell more or less against the probability of its being anything more than an idle one. In the first place, it would embroil the Russians with China at a juncture when they would be unlikely to court so distracting a complication; and the gain to them, from a strategical point of view, would be infinitesimally small. In the second place, no such movements of Russian troops as must necessarily have preceded an enterprise of this sort are known to have taken place, though, as news marches slowly in Central Asia, and, after all, a very small force would probably suffice, with the aid of the people of the country, to clear the Chinese out of Yarkand, this reason does not possess any very great weight. We doubt whether the possession of Yarkand by Russia would be a matter of much importance to us, except in so far as it would help to swell Russian prestige in Central Asia. The strongest reason against putting faith in the statement that the Amir has paid not only the arrears due to his troops, but three months' allowances in advance, is that it would involve a stretch of liberality of which a man of his temper would be very unlikely to be guilty. To have enabled him to do this, moreover, he must probably have been supplied with money by some other Power, and the only Power that would be likely to assist him in this way is herself on the verge of bankruptcy. Still, we do not speak with any approach to certainty on this head. The sum required would not be a very enormous one; Shere Ali, like most oriental monarchs, has no doubt a considerable private hoard; and the occasion is one which, he might feel, justified unwonted liberality. The probability is that he has really paid his troops more than experience had led them to expect, and that bazaar rumour has magnified the amount. We do not know, however, that troops usually fight the better for having well-lined purses, and it is probably of very little consequence as regards the actual result whether Shere Ali's have received wages in advance or not. The most important item of this telegram is the statement that Russia has offered a crore of Bokhara tillas for a footing in Herat, and is purchasing large quantities of grain for troops. The rumour is just such a one as would be likely to be set afoot in the Kabul bazars at the present juncture, and as the Kabul durbar itself would take pleasure in fostering. It is noteworthy that we are not told where these large quantities of grain are being purchased.

THE Umballa autumn race meeting has been abandoned, as nearly all who would have been concerned with its organisation, including stewards and secretary, have gone, or are going, to the seat of military operations.

THE prospects of the winter crops throughout Bengal continue very good, though prices are still high. Floods have damaged the crops on the low lands in Maimansingh, which caused a panic in the bazaar, what little rice was brought in selling at Rs. 8 per maund. Some more rain was wanted in parts of Shahabad, Saran, and Lohardagaa. In the eastern parts of Manbhum distress still continued, and relief works and charitable relief was still necessary. The autumn harvest was poor, and the prospects are not good, owing to insufficient rain.

A CALCUTTA paper says that a gentleman living near Calcutta has discovered a new practical use for the microphone, which promises to render it useful in the detection of crime. Having for some time missed oil from his godown, he fixed up a microphone near the oil cans, carrying the wire upstairs to his bedroom, and, after the house had been closed for the night, sat up to await the result. He was not long waiting before he heard the clinking of bottles followed by the gurgling sound of liquid being poured from one receptacle to another. Manning down-stairs with his bearer in *flagrante delicto* filling small bottles with oil for easy conveyance from the premises.

FROM a proclamation issued by the Chinese Governor General of the Provinces of Hunan and Hupeh in July last, it appears that a party of eight Russian travellers was expected shortly to pass through that province on their way to Hankow. Some time ago the Chinese Government, after much hesitation, consented to allow this party to travel from Russian territory through the Dungan country and Kokonor into Thibet, and from Thibet through Szechuen and Hupeh to Hankow. In consequence of this permission the Governor of Szechuen last year, and now the Governor General of Hunan and Hupeh, have issued orders for the safe conduct of the party through the territories under their rule.

A LETTER in the *Orient* of Bucharest from Bustchuck states that at a recent ball in that place the Russian General Commandant remarked to some Bulgarians who were present:—"Mes freres, la Russie avait promis de delivrer toute la nation Bulgare, mais"—pointing to the English and Austrian Consuls, who were present —"cela n'a pas pu à messieurs les Anglais et à messieurs les Autrichiens, qui vous ont sacrifiés à leurs intérêts. Cependant, ayant qu'il soit longtemps, vos vœux seront réalisés."

IN the resolution of the annual report on the Orissa Division we read:—"Considerable excitement was caused in Orissa by the barbarous murder of a priest of the temple of Juggernath by the Rajah of Pooree. It is satisfactory to find that there was universal indignation felt against the murderer, and that the sentence passed upon the Rajah was accepted by the people as the righteous judgment of the deity upon the misdeeds of his servant. This contrasts most favourably with the tone adopted by the native press in Bengal, which in many instances, so far from condemning the peculiar atrocity of the crime, seemed to find in the Rajah's position a sort of justification for his act, and was disposed to urge that his personal sanctity was a ground for mitigation of the sentence."

THE Constantinople correspondent of the *Times* writes:—"The present Sultan, though naturally of a gentle, kindly disposition, is extremely jealous of the security of his person, with sound suspicion anything likely to diminish it, and is not at all disposed to admit foreign interference in the ordinary course of affairs. More than once during the last few days, in conversation with a favoured few admitted to his presence, he has made significant remarks about semi-independent Indian princes. Evidently he fears that England aims at reducing Asia Minor to the condition of a dependency like India; and, accordingly, the result of the negotiations will to a great extent depend on the success of the British Ambassador in seeking to dispel this apprehension. Unfortunately, the impression is confirmed by a series of personages at the Porte and in the Palace of the Grand Vizier. Safvet Pasha is, I believe, intelligent enough to perceive that the policy for Turkey is to accept frankly the indispensable co-operation of England in the work of reorganising Asia Minor, even though this should entail a certain amount of interference in the shape of supervision and control. But Safvet, with all his clear intelligence and conciliatory disposition, is a man of weak character, and his position is so insecure that he cannot think of adopting an independent line of action. He has in the Ministry several rivals and opponents who desire to oust him in order to take his place, and outside stands another hostile group, the most prominent member of which is the energetic, unscrupulous, and wealthy ex-Vizier, Mahmoud Nedim, formerly the friend and tool of General Ignatieff. That much-feared, much-hated personage is at present in exile, but the treasures he amassed during his term of office are still intact, and large sums, I am assured, are being spent to secure his return to power. The task of procuring the necessary reforms has been rendered much more difficult by the growing conviction that English co-operation will not assume the form of pecuniary assistance. Those who are opposed to reform urge that nothing can be done without money, and that, if England does not lend a helping hand in this matter, her good advice is of no use, and her co-operation simply interference. Certainly, no real reforms can be effected without considerable outlay, and it is difficult to imagine how the necessary amount can be obtained from ordinary sources. Many people here consider the British scheme of reforms miserably insufficient, and think that England ought to take the administration of Asia Minor into her own hands at once. It is urged, too, that the Empire at this moment threatens to crumble to pieces; that the only cohesive force is the authority and *prestige* of the Sultan; that any diminution of this force would increase the danger of complete disintegration; and that the disastrous effect of precipitate violent action is shown by recent events in Bosnia and Herzegovina."

THE PROPORTION OF THE LAND REVENUE TO THE GROSS VALUE OF THE CROPS IN BOMBAY.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—In the proceedings of the local Council reported in the last *Government Gazette*, I observe the Hon'ble Mr. Gibbs makes known certain "facts" in order to remove the "misunderstanding on this subject of the Government assessment of the land." His facts relate to the proportion of the gross crop taken as Government assessment, which he estimates, from certain crop experiments, to be from one-seventh to one-fortieth. Now, setting aside the doubts which arise as to the accuracy of these returns, due to the limited nature of the experiments, the natural tendency of district officers to select the better portions of a field for their test, the real impracticability known to all acquainted with the survey operations of determining the proportion the assessment bears to the produce unless the whole crop of a survey number is taken, I would remind the hon'ble gentlemen who wish to remove the ryot's burden without altering the Government policy of taking as much as can possibly be collected, that the proportion of the assessment to the produce is no certain test of the severity of its pressure on the landholder, as any one acquainted with the accepted theory of rent—and of course hon'ble members are—must be aware; and, secondly, that if the revenue is collected good and bad years alike, whether there be any crop or none, and has to be borrowed for the purpose, Mr. Gibbs' facts become somewhat distorted, and, as schoolboys say, his sums won't prove. No one doubts that if there were a fair harvest every year, the ryot would pay his assessment without very great difficulty; but it is just the uncertain climate of the Deccan, coupled with the unfailing rigour of the Government demand, which drives him to the money-lender, and you and I differ from the Stars in Council in having our doubts as to whether it is in the power of the legislature to make the money market easier, and whether lessening the value of the only possible security by preventing the alienation of land and limiting the amount of redress obtainable in the courts against debtors may not have the contrary effect.

SCEPTIC.

THE TANNA WEEK.

WEDNESDAY and Thursday were gala days out there. Famous they will ever be in the annals of the township, indelibly engraven on the recollection of her citizens. For on this impressive and ever memorable occasion the great Tanna sports were held, rivalling in magnificence the classic contests of Olympia. Nothing could exceed the interest and the picturesqueness of the spectacle. We saw the dusky savage in feats of panther-like agility, we saw the champion runner of Bombay fall prostrate in the three-legged race. But it needs more glowing words than any I can hope to find to summarize the mighty deeds of athletic prowess we looked upon that day.

As was befitting on so glad and festive an occasion, Tanna was looking its best. The fresh green garment with which the recent rains have clothed the hills and fields is not yet withered into dull unlovely brown, and the sun was shining down on all this pleasant verdure with the proper golden splendour of a conventional Indian sun. Most of your readers are probably familiar with the park-like stretch of grass which runs between the prison and the oburob, and it was here the sports took place. Sumptuous marquees and innumerable smaller tents hemmed the arena in, while the air was laden with the strains of countless bands.

But grateful as it is to me to linger over the details of these Olympian games, and much as my delight would be in describing the marvels that were wrought, wretched exigencies of time and space warn me that I must hurry on. The programme of the two days was much as follows:—

Wednesday.

3 p.m.—Arrival of distinguished guests from all parts of the Presidency.

4 p. m.—Athletic sports in which the sepoys of H. M.'s 9th, 21st, and 26th Regiments N. I., the soldiery of the garrison, gentlemen competitors from Malta and Cyprus, a Sanitary Commissioner, and the Bombay champion athlete before alluded to, took part.

6 p. m.—Copious draughts of iced drinks. Preparations for the duties of the morrow.

Thursday.

6 a.m.—Badminton tournament at the Gymkhana.

10 a. m.—Banquet in tents, kindly given by Mrs. Coghlan.

6 p. m.—The lawn-tennis tournament.

8 p. m.—Fancy dress dance at the Collector's bungalow.

The Badminton tournament was of thrilling and absorbing interest. After a prolonged and painfully exciting contest, victory ultimately rested with a trio composed of Miss Hewitt, Mr. Jervoise, and Dr. Parker. Miss Hewitt was consequently the fortunate fair winner of a beautiful silver casket of antique workmanship. The lawn-tennis tournament unfortunately was not brought to an end, but while it lasted it was of great interest, Mr. Jefferson especially performing impossible strokes with startling effect.

In a time replete with mirthful revelry, in hours so crowded with enjoyment, it is difficult, perhaps invidious, to seek to say to which event the palm for chiefest pleasure should belong. But undoubtedly, of all the pleasant doings of the day, none was more delightful, and none has left a brighter memory on the mind, than the Fancy Dress Dance so kindly given at the house of Mrs. Jervoise. If the kindest hospitality, if a perfect room, if dresses of great and varied brilliancy, if a compound, the dark trees and winding paths of which were just revealed by the dreamy light of Chinese many-coloured lanterns could make an entertainment a success, then surely this was one. Among the costumes were noticed a Boulogne fisherwoman perfect in detail, and delightful in *ensemble*; oh, how it made one long to be back in Boulogne once again, if only on the chance of meeting one such faultless fisher girl alone; its sandy beach; a Normandy peasant, singularly quiet and effective, the very ideal of the artist fearing white-capped girls one meets in the Gothic streets of Rouen or Honfleur; a French Marquise, time Louis Quatorze, gorgeous with satin and brocade, very pretty and striking; and a great many more as may be seen from the following list, which represents some of those I can remember:—

Mrs. Coghlan.....	Boulogne Fisher girl.
Mr. Coghlan	Arab Sheik.
Mr. Cotgrave	Red Riding Hood.
Mr. Cotgrave.....	Sailor.
Miss Cotgrave.....	Fairy.
Mr. Jervoise	Uniform.
Mrs. Jervoise.....	Fashion.
Mr. Jefferson	German Courtier, 15th Century.
Mr. Hewitt	Dress.
Mr. Mesoany	Uniform.
Dr. Parker	Irishman.
Mr. Rimington	Charles Surface.
Mr. Rimington.....	Jack Tar.
Mrs. Yates	French Peasant, 18th Century.
Mr. C. Yates	Uniform.
Mrs. Walmesley	Spanish Countess.
Miss Walmesley.....	Marquise, time Louis XIV.
Miss Ward	Normandy Peasant Girl.

BOMBAY.

UTTERING FORGED GOVERNMENT CURRENCY NOTES.

ASSEN LALLJEE was brought up on remand and charged before Mr. C. P. Cooper on Thursday last, with uttering a forged Government currency note for Rs. 1,000, knowing the same to be forged.

The case was resumed on the following day, Friday, on which two occasions the evidence of two witnesses (viz. Ramjee Tarjee, a Marwaree, and Sorabjee Nowrojee, a wholesale liquor shopkeeper) to the transaction between the accused and the informant was taken. Their evidence appeared to corroborate in every material point that of the informant, and was not in any way shaken by the defendant's counsel. The case stands adjourned for further hearing to this day (Monday). On Thursday last, application was made to His Worship to liberate the accused on bail, who offered to deposit a sum of Rs. 50,000 in cash, and two sureties for a similar amount, but the Magistrate declined to accept bail.

THE TOWN COUNCIL AND THE BUDGET.

AN adjourned special meeting of the Town Council was held on Friday last for further consideration of the Municipal Commissioner's Budget estimates for 1879. Dr. Blaney presided; and there were also present Sir Frank Souter, Kt., C.S.I., the Hon'ble Dosabhoy Framjee, C.S.I., Messrs. Mathew, Kirkham, Dr. Pinkerton, Messrs. Raghunath N. Khote, Shantaram Narayen, and Nowrojee Furdoonjee.

EXECUTIVE ENGINEER'S DEPARTMENT.

The business commenced for the day with the Executive Engineer's department, and Rs. 19,200 were sanctioned for the salaries of the Executive, the Deputy Executive, and the Assistant Engineers. Mr. Walton's salary was put down in the Budget at Rs. 1,200; but he was to receive in all Rs. 1,500; and the Chief Accountant shewed that Mr. Walton could not suffer in any way by the proposed arrangement.

Mr. Shantaram did not wish to alter the figure at present to Rs. 1,500. When Mr. Walton had conquered that monster nuisance, the Drainage, they would raise the figure in the Budget.

Mr. Mathew proposed as an amendment, seconded by Dr. Pinkerton, that Mr. Walton's salary stand at Rs. 1,500 in the Budget.

On a division, the amendment was lost, and the original grant was allowed to stand.

Mr. Mathew proposed, and Sir Frank Souter seconded, that on the recommendation of the Executive Engineer, concurred in by the Municipal Commissioner, an additional allowance of Rs. 100 per mensem be given to the Assistant Engineer, Mr. McEwen.

It was proposed as an amendment by the Hon'ble Mr. Dosabhoy, seconded by Mr. Nowrojee, that the allowance be Rs. 50.

On a division the proposition was carried by the casting vote of the chairman.

The grant for the Executive Engineer's department was thereupon, raised to Rs. 20,400.

Rs. 14,028 were sanctioned for the office establishment Rs. 6,744 for the surveyors and draftsmen; Rs. 18,000 for the outdoor establishment, building branch; and Rs. 7,800 for the road branch. A total grant of Rs. 69,990 was passed for the department.

PUBLIC LIGHTING BRANCH.

Mr. Nowrojee drew attention to the reiterated complaints of the public with regard to lights.

Mr. Raghunath said the number of lights could not be increased without a fresh contract with the Gas Company.

Mr. Nowrojee said he would vote for 500 additional lamps if the Council could see their way to it.

Mr. Raghunath thought that number of lamps would cost Rs. 50,000, being at the rate of Rs. 100 per lamp.

It was proposed by Mr. Nowrojee, seconded by the Hon'ble Mr. Dosabhoy, that the amount of the grant be increased by the cost of 500 additional lamps.

The Chairman opposed the proposition, saying the City was already lighted in a most extravagant way. The cry everywhere was gas, gas,—gas even to insolvency.

Mr. Shantaram—It is laughing gas! (Laughter.)

The Chairman said it was no laughing matter. If they went on increasing the lighting, they should have no funds for the great works already undertaken, and about to be undertaken.

After some discussion, Mr. Nowrojee modified his proposition, and recommended that Rs. 2,000 be inserted in the budget for additional kerosine lamps.

It was arranged that this proposal be discussed in connection with the grants for new works.

The grant for the public lighting branch was passed at Rs. 2,56,808.

ROAD WATERING, &c.

The total grant for road watering was sanctioned at Rs. 50,577.

On the grant of road repairs, Mr. Nowrojee expressed his gratification at the reductions which had been made at his suggestion. The cost had been reduced from Rs. 20,500 to Rs. 17,500.

On the proposal of the Chairman, the grant for the paving of footways was raised from Rs. 15,080 to Rs. 20,000; and the total grant under this head was passed at Rs. 2,55,400.

OTHER GRANTS.

The repairs to municipal buildings were passed at Rs. 5,000, and the improvement interests at Rs. 25,000. The Vehar Water Works were passed at Rs. 45,520, exactly the same amount as the Budget estimate for 1878.

In connection with the grant for the Love Grove Pumping Station, Mr. Nowrojee proposed, seconded by the Hon. Mr. Dosabhoy, that, in consideration of the many valuable and meritorious services of Mr. Rowe, Superintendent Municipal Workshops, his salary be increased by Rs. 150, the addition being charged to the Love Grove Pumping Station establishment. Mr. Nowrojee said that, in the working of the shops a profit of Rs. 30,000 had been obtained by Mr. Rowe. The grant under this head was passed at Rs. 91,200.

The next grant was for the Victoria Gardens establishment; and among the charges was an item for the feeding of bears. Mr. Kirkham proposed that Rs. 100 a month be passed under the head for engaging the services of a band of musicians to play in the Gardens on Sundays, contending that the proposal came under the same description as the feeding of bears.

Mr. Nowrojee objected to the proposal, saying it was not for the maintenance of the Gardens.

The Chairman read a former opinion of counsel (Mr Scoble) to the effect that the municipality could not maintain a band.

After some discussion, an amendment was proposed by Mr. Shantaram that the solicitors to the Corporation be requested to advise in the matter.

The amendment was carried by the casting vote of the Chairman. The grant for the Gardens was passed at Rs. 9,000, and the meeting adjourned till Saturday.

On Saturday there were present Dr. Blaney (in the Chair) Dr. Pinkerton, Sir Frank Souter, C.S.I., Mr. Kirk

PATENT WROUGHT NAILS.

J. J. CORDES & Co.,
The Patentees and Sole Manufacturers of the well-known Patent Wrought Nails, commonly known as

"EWBANK'S NAILS,"

Desire to make it known that a "STAR" or "CROSS" is their Trade Mark, and that all Nails made and sent out by them, except clasp, bear this mark upon their heads, and that within every package sent from their Works is also placed a card bearing their Name and Address.

Any Nails, therefore, which are not distinguished as above, must not be confounded with

"EWBANK'S NAILS,"

the quality of which is so well appreciated as being far superior to that of any other make.

DOSWORKS :—NEWPORT, MONMOUTHSHIRE, ENGLAND.

ADVERTISING AT RAILWAY STATIONS.

THE Proprietor of the "Bombay Gazette' Press having leased (among other privileges) from the Great Indian Peninsula Railway Company, and the Bombay, Baroda and Central India Railway Company, the exclusive right of advertising at all the Railway Stations belonging to these two Companies, is prepared to contract with parties desirous of posting Notices or Advertisements on the lines.

The announcements may be in English or in any of the Native Languages.

The advantages which Railway Stations present as a means of bringing intimations of all kinds before the public have been demonstrated in England by the extensive use which is made by Advertisers, of every station, great and small, along every line in the United Kingdom.

Insurance Companies, Shipping Companies, Hotel-keepers, Merchants, Traders, and others who wish to force their business on the notice of the Public, all alike value the privilege of Railway Station Advertising.

There is no reason why the privilege should not be also specially valuable to Advertisers in India. Looking to the great and increasing number of Native Railway Passengers on the two trunk lines of Western India, native merchants, traders, &c., seeing that they have the privilege of advertising in their own language, would find the publication of their announcement at Railway Stations a decided means of extending their business.

And as nearly ALL TRAVELLERS A RRIVE IN BOMBAY OR LEAVE AS BOMBAY, and proceed by the G. I. P. or B. B. and C. I. Railways to their destinations, placards exhibited at the different stations on those lines are every day becoming more and more valuable as means of bringing the Advertisers' business to the notice of the Public.

Advertisers can select the Stations, on either line, at which they wish their Placards posted, and may advertise for any period that may be agreed on. The charges have been fixed in an extremely moderate scale to encourage Advertisers to make a liberal use of the new means now offered of making announcements known to the Public.

Placards, according to the taste of Advertisers, may be printed at the "Bombay Gazette" Press.

WELL WORTHY OF NOTICE AS A CERTAIN CURE.

For Bilious and Liver Complaints, Indigestion, Wind, Spasms, Foul Breath, Nervous Depression, Irritability, Lassitude, Loss of appetite, Dyspepsia, Heartburn, Sour Eructations, Lowness of Spirits with sensation of fullness at the pit of the Stomach, Giddiness, Dizziness of the Eyes, &c.,

DR. SCOTT'S BILIOUS AND LIVER PILLS STAND UNRIVALLED.

As a General Family Aperient Medicine they have no equal, being mild in their operation, and grateful to the Stomach, they give a healthy tone and vigour to the different digestions, causing the necessary organs of the Stomach and Liver to resume their activity, thus restoring the appetite, promoting digestion, and strengthening the whole system.

They can be taken at any time without restraint from business or pleasure, hence they are a most valuable domestic Medicine. Heads of households should always have a box of these Pills by them, to resort to on any slight occasion of ailing on the part of those under their charge, as by paying attention to the regular action of the Stomach, Liver and Bowels, many a severe illness is avoided or mitigated. They will be found in slight cases by a single dose to restore health to the body with a happy frame of mind.

Prepared only by W. Lambert, 1A. Vere Street, London, W., England. In Bottles ONLY, 1s. 1½d. and 2s. 9d. Sold by all Chemists.

IMPORTANT CAUTION.—Be sure to ask for "DR. SCOTT'S Bilious and Liver Pills," in a green bottle, wrapped in green paper, and having the name and address,

WILLIAM LAMBERT,
8, King William Street, Charing Cross,

Engraved on the Government Stamp. Do not, therefore, purchase without seeing the Government Stamp over the cork of the bottle,
